DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 13, lines 6-7, the term "the pattern decision part" lacks proper antecedent basis.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 2624

4. Claims 13 & 26, insofar as claim 13 is understood, is rejected under 35 U.S.C. 102(e) as being anticipated by Curry (6081345) or Curry (6092732).

Re claims 13 & 26, Curry (each) discloses (Curry '345: Figures 8-9, column 7, line 63 - column 8, line 38; Curry '732: Figures 8-9, column 7, line 63 - column 8, line 38) an image processing arrangement in which one of several patterns is selected. The selected pattern has an area that corresponds to the density level (readable upon the black "color component") of one image (in order to represent that density level as a "halftone shape) and is selected to superimpose upon this image the pattern of a second image (such as the recited "patterns that have textual significance").

Allowable Subject Matter

5. Claims 1-12 & 14-25 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter:

Re claims 1 & 14 (and dependent claims 2-12 & 15-25), the art of record does not teach or suggest the recited combined size and shape modulation of a pattern in accordance with a color component density of an image which is to be superimposed upon another image.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
